To Whom It May Concern:

Concierge Colorado has been a life saver for me both in my professional role as Nurse Recruiter at Presbyterian/St. Luke's Medical Center and as an employee. Todd, Courtney and Jeremy are awesome concierges; they are friendly and willing to help in every way. In my role as Nurse Recruiter I tell all prospective employees about the benefits of using the concierge and all the wonderful things that can be done for them. The majority of candidates has never seen a concierge in the hospital setting and is amazed that P/SL provides such a great benefit. Even though P/SL provides the benefit it is really the hard work and dedication of the concierge staff that makes the benefit successful.

As an employee of P/SL I have used Concierge Colorado too many times to count. They take care of my dry cleaning, post office runs, gift shopping, and many other errands too numerous to mention! Not only are they friendly and courteous they are also very professional and prompt.

I would recommend Concierge Colorado to anyone considering concierge services in their business setting. There are other concierge services but I feel Colorado Concierge is really the best.

Sincerely,

Sonja Classen, RN, BSN
Professional Nurse Recruiter
